SUMMARY

Senior Software Engineer with over 5 years of experience specializing in AI-driven ecosystems and high-performance mobile applications. Expert in architecting RAG (Retrieval-Augmented Generation) pipelines, real-time Machine Learning ensembles, and scalable backend infrastructures. Proven track record in leading end-to-end development lifecycles for complex, multi-tenant production environments.

TECHNICAL SKILLS

- **AI & Machine Learning:** RAG Architectures, Gemini AI API, NLP (mBERT, Bi-LSTM), ChromaDB (Vector DB).
- **Languages:** Python (FastAPI), Dart (Flutter), JavaScript, Java, PHP, SQL, C++.
- **Mobile/Web:** Flutter, WearOS, watchOS, React Native, Three.js, Material UI (MUI).
- **Backend & DevOps:** Supabase (Auth/RLS), Firebase, JWT, GitHub Actions (CI/CD), Docker.
- **Core CS:** System Design, Algorithm Optimization, Database Concurrency (2PL), Statistical Modeling.

PROFESSIONAL EXPERIENCE

- | | |
|--|---------------------|
| CodesMine Software Solutions | Jan 2023 – Present |
| <i>Senior Software Engineer</i> | Sialkot, Pakistan |
| <ul style="list-style-type: none">• Leading the architecture of multi-tenant AI services, implementing secure data isolation and real-time streaming protocols.• Architecting specialized search engines for multilingual text databases, optimizing for sub-500ms retrieval latencies.• Spearheading the integration of LLMs into production workflows, focusing on context-aware retrieval and prompt engineering.• Managing full-stack performance tuning, including state management and advanced database concurrency control. | |
| Infinky Solutions | Jan 2021 – Dec 2022 |
| <i>Mobile App Developer</i> | Sialkot, Pakistan |
| <ul style="list-style-type: none">• Developed and deployed high-traffic cross-platform mobile applications, improving user engagement by implementing responsive UIs.• Engineered robust offline-first synchronization modules using SQLite and background services for data consistency.• Collaborated with cross-functional teams to translate complex business requirements into technical specifications. | |

KEY PROJECTS

- | | |
|---|------|
| DocuMind — Document Intelligence Platform (AI/RAG) | 2026 |
| <ul style="list-style-type: none">• Architected a full-stack RAG pipeline: PDF extraction → recursive chunking → vector embeddings → generation.• Built a high-performance FastAPI backend with ChromaDB for real-time semantic document querying.• Implemented streaming AI responses using Server-Sent Events (SSE) and Dart Async Generators in Flutter. | |
| SMS Spam Detection System (ML/NLP/Ensemble) | 2025 |
| <ul style="list-style-type: none">• Engineered a hybrid classification ensemble (Naive Bayes, SVM, Bi-LSTM) with multilingual support via mBERT.• Integrated Adversarial Text Normalization and Adaptive Learning loops to combat evolving spam patterns. | |
| Smart Hajj & Umrah Companion (Wearable Technology) | 2025 |
| <ul style="list-style-type: none">• Developed a location-aware WearOS/watchOS solution with Gemini AI for real-time ritual guidance.• Integrated family safety features including geofencing and real-time location streaming via Firestore. | |

EDUCATION

- | | |
|---|----------------------|
| GIFT University | Oct 2020 |
| <i>Bachelor of Computer Science, Specialization in Software Engineering</i> | Gujranwala, Pakistan |
